About Reporting
Reporting options are not mutually exclusive. Both internal and criminal reports may be pursued simultaneously. Survivors are encouraged to pursue whatever routes they feel will be most helpful in their recovery.

Other On-campus Resources
Project SAFE: An Oxy program providing resources and advocacy related to sexual assault issues. Project SAFE aims to educate about the realities of sexual assault, as well as assist in its prevention.
(323) 341-4750

Sexual Assault Resources & Support website:
Provides resources to utilize if you or a loved one has been sexually assaulted.

Key
* Medical providers are mandated to inform police if a patient tells personnel he/she has experienced sexual assault. However a survivor has the right to request a victim advocate and not pursue a criminal charge at that time. SART (Sexual Assault Response Team) facilities are able to perform forensic exams and are most effective in gathering evidence within 96 hours of an incident.
