Grant related course release requests

January 2009

In order to encourage full-time tenured or tenure track faculty to engage in grant related research activities, Occidental College provides a matching component when the faculty requests release time to external funding agencies in order to engage the proposed research activities.

The formula for faculty requesting this grant related course release to an external funding agency is currently \$13,000 per course, provided the following requirements are met:

1. Limit of one course release during the grant period.
2. Faculty must teach at least one course during the semester of the course release.
3. The College contribution should be specified in the grant proposal.

The College's contribution to the funding of the course release is the difference between 20% of the faculty member's annual salary and \$13,000.
