Sections: A class section is an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory or discussion session. Undergraduate class sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Distance learning classes, noncredit classes, individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings, independent study, co-operative programs, internships, foreign language taped tutor sessions, and practicums are excluded. Each class section is counted only once and not duplicated because of course catalog cross-listings.

Subsections: A class subsection includes any subsection of a course, such as laboratory, recitation, and discussion subsections that are supplementary in nature and are scheduled to meet separately from the lecture portion of the course. Each class subsection is counted only once and not duplicated because of course catalog cross-listings.
