B. CATALOGUE DESCRIPTION

This course provides a focused approach to the fundamentals of public health. It is organized into two sections: Public Health Fundamentals and Public Health in Practice. The first section covers key concepts in public health: the ecological model of health, history of public health, controversial issues in public health, social determinants of health, inequities in health, epidemiology, and the interplay of research, evidence and politics in public health program and policy development and implementation. The second section of the course, Public Health in Practice, focuses on several areas of current public health practice. In each of these practice topics, the public health problem is described, stakeholders identified and suggested policy and programmatic responses are explored. One field trip is planned to expand learning in one of the practice topics.

C. INSTRUCTORS' COURSE DESCRIPTION

Many UEP majors have an interest in policy, social justice, community engagement, and health. The Public Health field encompasses all of the aforementioned areas and more. This course is a forum to discuss and analyze core public health practice, emerging public health topics, determinants of health, and the intersection between politics and evidence-based public health practice.

D. COURSE OBJECTIVES

By the end of this course, students will be able to...

1. Define public health, its three core functions, and ten essential services.
2. Describe the purpose of Healthy People 2020, its overarching goals, and action model.
3. Identify and explain the factors that contribute to population health outcomes.
4. Describe public health's role in assuring health equity in places where people work, live, and play.
5. Identify and analyze the role politics plays in public health.
6. Define and identify sources of evidence-based public health practice.
7. Examine the impact of local, state, and federal policies on health.

E. TEXT

Required Text: Schneider, M.J. (2013). *Introduction to public health*. (5th ed.). Burlington, MA: Jones and Bartlett Learning.

This text complements course content. Any additional readings, resources, or handouts will be available for download on the class Moodle site.

G. ACADEMIC ETHICS AND LATE ASSIGNMENT POLICY

The Oxy Student Handbook states “Academic misconduct occurs when a student misrepresents others’ work as her/his own or otherwise behaves so as to unfairly advantage her/himself or another student academically.” Examples of academic misconduct include cheating and plagiarism. The college expects each student behaves in an ethical manner and expects staff and faculty to report such behavior. Visit the Student Handbook for more information about academic ethics: <http://www.oxy.edu/student-handbook/academic-ethics/academic-ethics>. Late assignments will not be accepted.

H. ACCOMMODATIONS

Students with documented disabilities who are registered with Disability Services are required to present their accommodation letter to the instructor at the beginning of each semester or as soon as possible thereafter. Any student who experiences significant physical or mental impairments may contact Disability Services at (323) 259-2969 to learn about available services and support. More information is available at <http://www.oxy.edu/disability-services>.

I. TENTATIVE CLASS SCHEDULE

The following schedule is tentative. Guest lecturers, films, fieldtrips, and other activities will be presented. Students will receive email noting any changes and updates will be posted onto Moodle. Even though the schedule may vary, students are expected to complete all readings and assignments by the designated date, unless stated otherwise by the instructors.
