The following Kinesiology courses include a 4-unit lecture component and a 1-unit laboratory component: 300, 301, 302, 304, 310. The lecture component will be awarded a letter grade which will include a 20% contribution from points scored in lab. The lab component will be graded on a credit/no credit basis. In order to receive credit for lab, students must meet the following requirements:

1) score $\geq 60\%$ of points possible in lab
2) complete the semester with a maximum of 2 excused absences which are made-up according to the instructor’s policy
3) complete the semester with a maximum of 1 unexcused absence

If a student fails to pass the lecture component of the course, but completes the requirements necessary to earn credit for lab, that student will be required to re-take the lecture portion of the course ONLY.

If a student passes the lecture component and scores NO CREDIT for the lab component, that student will be required to re-take the lab portion of the course ONLY

If a student fails to pass the lecture component of the course AND scores NO CREDIT for the lab component, that student will be required to re-take both the lecture and lab portions of the course.
